

CONNECT – OKMULGEE
FOR OKMULGEE RESIDENTS ONLY

Okmulgee’s **MASS NOTIFICATION SERVICE** was implemented to provide county and city officials the ability to communicate with residents regarding time-sensitive incidents, which may include, planned or unknown public safety matters.

The **CONNECT-OKMULGEE** service allows officials to record, send and track personalized voice messages to thousands of residents, businesses and local agencies in just minutes, through a single phone call. The city can also send text messages to cell phones, e-mail accounts and TTY/TDD receiving devices for the hearing impaired.

We are always working to maintain a safe and better environment for Okmulgee residents and to also improving city and county wide communication. The **Connect-Okmulgee** service is a powerful tool that will allow us to notify residents of a **public service matter** or important issues of public interest within minutes, through just one phone call.

Okmulgee City - County residents or businesses can opt-in to provide their complete information (up to four phone numbers) and indicate if they have a TTY/TDD device by completing the following application and submitting it to City Hall.
